"Dear Japanese Stroke Colleagues

I warmly invite you to join the World Stroke Organization and help us in our mission to reduce the global burden of stroke. For a small annual fee, you will receive many privileges as a WSO member, including free subscription to the International Journal of Stroke, our regular newsletters, reduced conference fees, speedy access to the World Stroke Academy and eligibility for a variety of WSO awards. Most importantly, you will be joining the global fight against stroke. The former International Stroke Society (the forerunner of the WSO) was set up by Japanese stroke leaders, in Kyoto 1989.

We need many Japanese members, particularly given the giant contributions made to our field by stroke experts from Japan. Please join the WSO as we would greatly value your membership and contribution to our global efforts.

Best wishes

Steve Davis"
